mers, 1; Norwich and Worcester, 1; Ohio 6's, 1; Vicks burg, 1; Reading Ratiroad, 1; and Morris Canal, 1.—

The Pennsylvania Coal trade this year, compared with last, has increased about thirty per cent. The shipments for each district have been greater this season than last We ennox a table comparing the shipments from each section for the same period in 1844 and 1845.

PENNSYLVANIA COAL TRADE.

802,419 17 634,764 11 177,715 06

week about 8,000 tons. The quantity sent down by the railroad week before last, was 22,879 07 tons. Last week the quantity sent by railroad was 16,956 06 tons; by cansi, 4,386 17 tons—making a total of 21,343 03 tons. Last year, to this time, the railroad carried 36,239 tons of coal ransported 230,942 tons more than the canal. The quan district, to Philadelphia, this season, to the 12th inst. was 100,511 tons more than for the same period last year. The tion of the increased quantity mined, but has drawn more than one hundred thousand tons from the canal, in

the Philadelphia and Reading Railroad Company, for one

 83,054

stimate made last fall of the quantity of coal to be transported on the Reading Railroad in 1845, put down the amount at eight hundred thousand tons. This estimate has been exceeded during the past six months of the year, which gives the company reason to antici pate an increase in the remaining six months, which are the most active months for this business in the years much larger than that already realized. From present estimates, we should judge the actual transportation of coal for the year on the railroad would exceed the estimate at least fifty thousand tons.

The stock of the Great Northern Railroad Company rom Boston to Concord, Lebanon, &c.. has been all taken. The capital to which the company is entitled, is a mil. lion and a half of dollars, nine hundred thousand of which had been subscribed before the books were opened in Boston. Seven hundred thousand were taken in ston, being \$100,000 over the amount required. Thebanking capital of Ohio will soon be larger than ever

has been before. Several banks have been organized under the new banking law of that State, and will soon be in active operation. We annex a list of those organized as branch and independent banks:-

THE

INVISIBLE

WIG

So closely resembles the real head of hair that sceptics and connoisseurs have pronounced it the most perfect and extrareliancy invention of the day. The great advantages of this novel and unique, wig is its being made without sewing or weaving which causes its appearances so closely to resemble the natura unit, both in lightness and natural appearance, as to defy detection, its texture being ao beautiful, so porous and so free, that in all cases of perapiration evaporation is unimpeded and the great of of other wige suriety avoided. This acceptic and pumpiles of the peraperaperaped of fitting the liend, at the manufacturer's, at the peraperaperaped of fitting the liend, at the manufacturer's, at the peraperaperaped of fitting the liend, at the manufacturer's, at the peraperaped of fitting the liend, at the manufacturer's, at the peraperaped of fitting the liend, at the manufacturer's, at the peraperaped of the peraperaped of the liend, at the manufacturer's, at the peraperaped of the peraperaped of the liend, at the manufacturer's at the peraperaped of the peraperaped of the liend, at the manufacturer's at the peraperaped of the peraperaped of the liend of the peraperaped of the liend of t

LATES ? INTELLIGENCE.

BY LAST EVENING'S MAIL. Washington.

Washington, July 11, 1841. Important Political Intelligence-The Way it was

Done The political state of affairs just now appears allost as stagnant here as it is in New York, in conequence of the great heat of the weather. The acceptance of annexation by the Republic of Texas has removed a load of anxiety from the minds of the administration, and every body considers the idea of Mexico declaring war as entirely ridicu-

now engaged with preparations for an alteration in the present mode of depositing the public moneys in the banks, or with individuals, and it is said that bonu fide security will be demanded from all depositories hereafter selected. It is said also bona fide security will be demanded from all depositories hereafter selected. It is said also that he will recommend to the next Congress, is change in the present tariff, which will cause a greater division in the ranks of the Democracy than the question of annexation ever did. In fact, I learn from various sources, that the opinions of Martin Van Buren and Silas Wright on the question of the tariff, caused more serious secret opposition to the selection of Mr. Van Buren, by the Baltimore Convention, than even the Texas question, and it is rumored that the latter was only made the pretext of opposition; that his views having been previously and privately ascertained, he was brought out by the letter of Dr. Hammett of Mississippi, in opposition to annexation, and that this was the cause of his not being selected. The true secret, now developed, was his anti-southern views of the tariff, and I believe this to be the case, for it comes from an athentic source. I am sorry at not having it in my power to send you the author's name, but it is impossible, the fact having been thus confidentially stated. If such a secret combination between the southern, western, and south-western politicians could defeat Van Buren, you will see at once that Silas Wright stands a very poor chance. Buchanan is still in a worse predicament t an either, as he and his strongest adherents in Pennsylvania, avowed themselves openly protective tariffies at the campaign of last fall, and even "out-bluffed" the Whigs in their advocacy of the tariff. This over-bluffing the Whigs on their favorite measure, is now freely talked of here, and laughed at as a good joke, or the humbug of those days.

Secretary Walker is preparing the way for his own nomination for the Presidency, and his first grand political move will be given in his report to the next Congress, when, it is asserted, he will recommend a reduction of the present tariff to the recenue standard, as it is called. The introduction of Texas as a State will surely add much to the southern a
